

ABA: Proven to bring better days

Life with ASD can be overwhelming. You're worried about your child's future, exhausted by daily meltdowns, and wondering if things will ever get easier.

We're here to help and offer hope.

At Kennedy ABA, we use established ABA techniques to help families move from surviving to thriving.

What is ABA?

Applied Behavior Analysis is a therapy approach that teaches new skills and reduces challenging behaviors, by understanding what motivates your child.

ABA therapists break down complex skills into small, manageable steps and use positive reinforcement to help new behaviors stick.

At Kennedy ABA, children with ASD thrive because we blend years of clinical experience with genuine care and support.

ABA can help your child with:

Communication

Social Skills

Daily Living Skills

Behavior Management

Want to see your child master these skills?

With Kennedy ABA, they can.

What we offer:

In-home ABA Therapy

Therapists use proven methods to help your child develop communication, social, and daily living skills at home.

Parent Training

Hands-on guidance empowers you to support your child's progress and manage challenges.

School Collaboration

We team up with your child's school to support classroom success with ABA strategies.

Insurance Management

From authorizations to claims, we manage the paperwork so you can focus on what matters most — your family.

**Parents say
ABA has helped my child become more:**

Independent

Happy

Expressive

Confident

Themselves
