

Experience that makes a difference.

Gradual Behavioral Health brings 20 years of clinical expertise to every case. That depth shows in nuanced assessments, responsive adjustments, and the kind of professional judgment that only comes with time.

When you refer to us, families receive:

-  Thorough functional assessments
-  Flexible treatment planning
-  Evidence-based approaches
-  Parent coaching
-  Connections to trusted professionals in our network

Our Service Model

Flexible therapy settings,
consistent clinical excellence

In-Home Therapy:

Naturalistic teaching in the child's primary environment

Center-Based Therapy:

Structured clinical space designed to promote skill acquisition

(Coming 2026)

Community-Based Therapy:

Real-world practice across community settings to support functional independence

Interdisciplinary Collaboration:

Active coordination with SLPs, OTs, physicians, educators, and other specialists on each patient's care team

Most insurance plans
and Medicaid accepted

Let's connect

Partnering to support families

We work alongside providers to create partnerships that benefit families and care teams alike.

Ways we work together:

Co-hosting workshops, parent education events, or social media initiatives

Consulting on treatment approaches and planning for shared clients

Mutual referrals to ensure families receive comprehensive support

Collaboration doesn't replace expertise — it elevates it.

Good partnerships

start with a conversation

If you serve Georgia families and value thoughtful, coordinated care, let's talk
